About us

The Luxembourg Centre for Systems Biomedicine (LCSB) is an Interdisciplinary Research Centre of the University of Luxembourg. It combines experimental and computational approaches to analyse complex biological systems and disease processes with a strong focus on neurodegeneration. The overarching strategy of the LCSB is to systematically combine interdisciplinary approaches to contribute to the prevention, diagnosis and cure of neurological diseases.

The conference Impact of Big Data & AI Analytics on Healthcare will take place on 19 and 20 November 2026 and is built around four complementary themes:

- Big Data and Machine Learning
- Target discovery and drug development
- Clinical decision support systems
- Technological and industrial advances

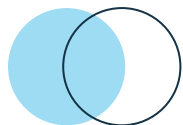

The event offers added value through its integrated coverage of the entire translational pipeline and emphasises European research infrastructure and priorities. The conference serves as a platform for interdisciplinary exchange, fostering joint strategies and collaborative initiatives within the international bioinformatics community.

The event offers several opportunities for attendees to network: in addition to coffee/ lunch breaks with poster sessions, a networking dinner will be organised on 19 November, providing a platform to further share findings, perspectives and experiences.

Key info

Date:	19 & 20 November 2026
Venue:	University of Luxembourg Maison du Savoir 2, avenue de l'Université L-4365 Esch-sur-Alzette Luxembourg
Audience:	~250 participants on site
Website:	https://bigdata.uni.lu/

Why become a sponsor

1

Meet a unique community of international scientists in the field of Biomedicine.

2

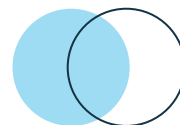

Learn about customers' current needs and expectations and discuss future trends and challenges with other experts in the field

3

Show your solutions to highly trained participants

4

Gain more visibility

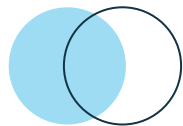

Sponsorship packages

¹ Booth 6 sqm: 1 rectangular table (180x60 cm) and 2-3 chairs. Space for 2 roll-ups.
Booth 4 sqm: 1 high table and 2 stools. Space for 1 roll-up.

² To be provided by the sponsor.

* Excluding VAT

Sponsorship individual options

Short presentation

Present your company during a 10 minutes presentation slot in the conference auditorium.

1 500€

Coffee breaks and lunch

- Logo (medium) on conference website, abstract booklet & screen
- Flyer in welcome bag
- Roll-up in the reception area
- 2 free registrations

2 500€

Networking Dinner (19 November)

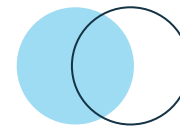

- Logo (prominent) on conference website, abstract booklet & screen
- Special announcement before the dinner
- Roll-up in the reception area & flyer in welcome bag
- 1 free registration & accesses to Network

3 000 €

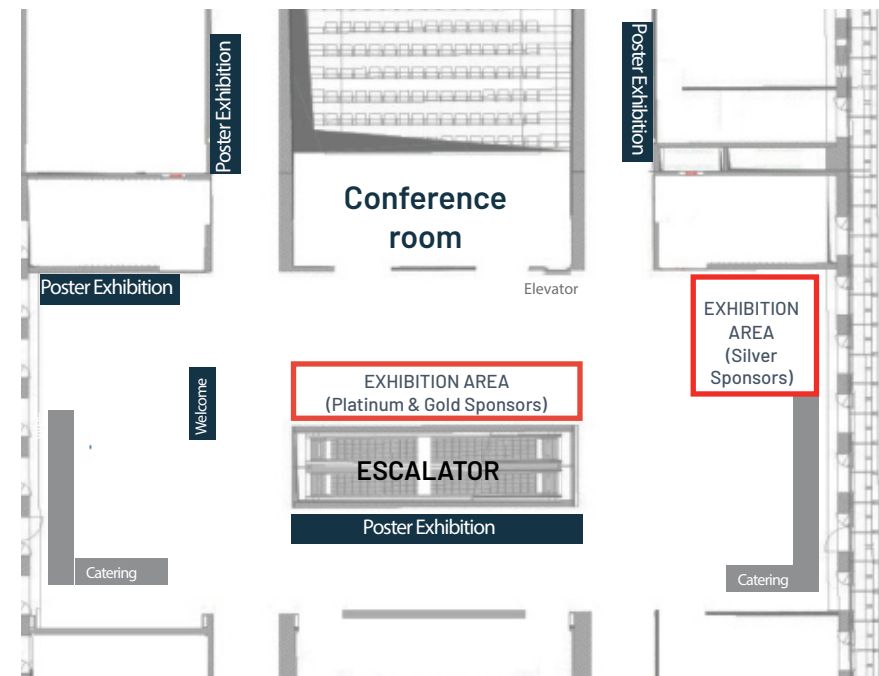

Travel grant

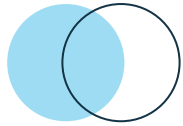

- Sponsor one or more travel grants for young researchers
- Logo on conference website, abstract booklet, screen (size of the logo depending on the amount of grants sponsored) & flyer in welcome bag

500 €

Conference programme

The venue

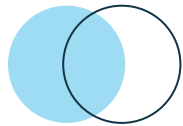

Due to its ideal location in the heart of Europe, the Grand-Duchy of Luxembourg benefits from an international environment.

Belval Campus, also known as the city of science, is located in the South of the country and used to be an industrial site of steel. Nowadays, the site hosts the University of Luxembourg, a future school centre, several research centres and start-up companies.

Due to its internationalism, campus Belval attracts research institutes and companies, particularly in the fields of biomedicine and ICT. The convergence of researchers, students and companies in one place constantly provides new food for thought.

The conference will take place in the Maison du Savoir (literally House of Knowledge), the central building of the University of Luxembourg. The building offers several rooms and auditoriums that can be

How to reach Belval campus

From Luxembourg Airport - Findel

30 km from the venue
25 minutes by taxi
45 minutes with public transport (Bus + train)
www.lux-airport.lu

From Luxembourg Central Train Station (Gare Centrale)

20 km from the venue
20 minutes by taxi
35 minutes by train (trains every 15 minutes)
www.cfl.lu

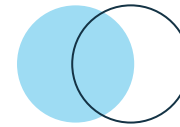

Reaching Belval by Bus

Several bus reach Belval campus.
More information on public transports is available on www.mobiliteit.lu

Reaching Belval by Car

The venue is easily reachable through highway A4.
More information on how to access by car and parking availabilities can be found on the conference website:
